## **Baymark Partners Acquires CIS**

DALLAS, Texas—Baymark Partners today announced that it has agreed to acquire CIS, a leading provider of Network Integration and Infrastructure Services throughout the United States and Canada.

Founded in 1995 and based in New York City, CIS is renowned for its expertise in identity and access management, network security, enterprise cloud migrations, and IP telephony.

“CIS is the type of company Baymark Partners wants to be associated with,” said David J. Hook, Managing Director at Baymark Partners. “CIS has a reputation for going the extra mile for client satisfaction for more than two decades now. That unparalleled dedication is the reason why we chose CIS to invest in.”

From its inception more than 20 years ago, the focus of CIS has been client retention, with the slogan “It’s all about the client.” CIS clients include American National Standards Institute, Cablevision, NY Methodist Hospital, and the Jewish Museum.

“We are so pleased to be able to count Baymark among our partners,” said Todd Hershman, President of CIS. “This partnership creates a whole new resource for us to tap into in order for us to achieve our mission, which is to

serve as a world class technology advisor and form long-term mutually beneficial relationships with those firms we do business with.”

Terms of the transaction were not disclosed.

###

### **About CIS**

CIS is a leading provider of Network Integration and Infrastructure Services throughout the United States and Canada. CIS’s client portfolio includes many of the world’s most recognized firms and institutions. Since the company’s inception in 1995, customers have been drawn to CIS by the unparalleled talent and diligence of the engineering and architecture team. CIS has maintained a peerless reputation for providing comprehensive services such as network design, implementation, management, after care and support, and disaster recovery and business continuity solutions, as well as hardware and software sales, installation, and customization by an elite stable of certified and highly experienced engineers.
