## **Baymark Partners Acquires United States Appraisals**

DALLAS, Texas—Baymark Partners announced that it has completed the acquisition of United States Appraisals, a nationwide appraisal management company based in Kansas City, Missouri.

United States Appraisals provides a comprehensive suite of residential valuation products to mortgage lenders. The company provides its clients with an appraisal solution that delivers 100% compliance, superior customer service, unprecedented quality, and industry-leading turn times.

“We are very pleased to announce this partnership with United States Appraisals,” said David J. Hook, Managing Director at Baymark Partners. “The quality of their appraisal solutions is unequalled in the valuation field, as is the level of efficiency at which the company performs. With United States Appraisals, we are adding the absolute best in home valuations solutions.”

United States Appraisals achieves high-quality results by utilizing the latest technology and providing top customer service. The company has developed its own proprietary cloud-based platform that does the heavy lifting of appraisal management, rapidly analyzing each appraisal against a set of 2,000 data points that check for quality control, compliance, and client specifications to quickly diffuse issues.

“I can’t think of a better strategic alliance in which to engage than this partnership with Baymark Partners,” said Aaron Fowler, CEO of United

States Appraisals. “They have a proven history of success when it comes to expanding the companies they invest in. We are looking forward to collaborating with Baymark Partners on plans that will accelerate our growth in valuation industry.”

Terms of the deal were not disclosed.
